SAFETY DATA SHEET

1. Identification Product identifier Other means of identification Recommended use Recommended restrictions	DISSCO [®] 591 Pipe Coating Asphalt Cutback Asphalt cutback used as a protective coating on steel pipe, steel pilings and weld plates. Not known
Manufacturer/Importer/Suppl	ier/Distributor information
Manufacturer	
Manufacturer:	DISSCO ₈ - Denver Industrial Sales and Service Co.
Address:	850 South Lipan Street
	Denver, CO 80223
Contact Name:	Todd Mellema
Telephone:	303-935-2485
E-mail:	todd@dissco.net
INFOTRAC:	1-800-535-5053

2. Hazard(s) identification		
Physical hazards	Flammable liquids	Category 3
Health hazards	Specific target organ toxicity, single exposure	Category 3 narcotic effects
Environmental hazards	Not classified	
OSHA defined hazards	Not classified	

Lable elements

Signal word	Warning
Hazard statement	Flammable liquid and vapor. May cause drowsiness or dizziness
Prevention	Keep away from heat/spars/open flames/hot surfaces. – No smoking. Use only outdoors or in a well-ventilated area. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting/ equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist/vapors/spray. Wash thoroughly after handling.
Response	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. In case of fire: use appropriate media for extinction.
Storage	Store in a well-ventilated place. Keep Cool.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations. See section 13 of this SDS for disposal instructions.
Hazard(s) not otherwise Classified (HNOC)	None known
Supplemental information	None

DISSCO®

Mixtures

Chemical name	Common Name and synonyms	CAS number	%
ASPHALT		8052-42-4	40 - 60
PETROLEUM NAPHTHA		8008-20-6	40 - 60

Composition comments	Components not listed are either non-hazardous or below the required disclosure threshold.
4. First-aid Measures	
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Get medical attention, if needed.
Skin contact	For hot product, immediately immerse in or flush the affected area with large amounts of cold water to dissipate heat. For minor skin contact, avoid spreading material on unaffected skin. Wash off with soap and plenty of water. If skin irritation occurs: Get medical advice/attention.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. If a contact lens is present, DO NOT delay irrigation or attempt to remove the lens. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth thoroughly. Call a POISON CENTER or doctor/physician. Do not induce vomiting without advice from poison control center. If vomiting occurs, keep head low so that stomach content doesn't get into lungs
Most important	Not available
Symptoms/effects, acute and Delayed	
Indication of immediate	In case of shortness of breath, give oxygen. Keep victim warm. Keep victim under
Medical attention and special Treatment needed	observation. Symptoms may be delayed
General information	IF exposed or concerned: Get medical advice/attention. In case of shortness of breath, give oxygen. Keep victim warm. Keep victim under observation. Get medical attention if symptoms occur. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.
5. Fire-fighting measures	
Suitable extinguishing media	Foam. Carbon dioxide (CO2). Water fog. Dry chemical powder.
Specific hazards arising from the chemical	Fire may produce irritating, corrosive and/or toxic gases
Special protective equipment and precautions for firefighters Fire-fighting Equipment/instructions	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Structural firefighters protective clothing will only provide limited protection. In case of fire and/or explosion do not breathe fumes. Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Move containers from fire area if you can do so without risk. Do not get water inside container. Some of these materials, if spilled, may evaporate leaving a flammable residue.
Specific methods	In the event of fire and/or explosion do not breathe fumes

DISSCO®

Denver Industrial Sales and Service Co. Ph: 303-935-2485 www.dissco.net

6. Accidental release measure	S
Personal precautions,	Keep unnecessary personnel away. Keep upwind. Keep out of low areas. Ventilate closed
protective equipment and	spaces before entering them. Do not touch damaged containers or spilled material unless
emergency procedures	wearing appropriate protective clothing. Do not touch or walk through spilled material
Methods and materials for	Stop the flow of material, if this is without risk. Use a non-combustible material like
containment and cleaning up	vermiculite, sand or earth to soak up the product and place into a container for later disposal.
	Never return spills in original containers for re-use.
Environmental precautions	Prevent further leakage or spillage if safe to do so. Do not contaminate water. If this material is spilled into navigable waters and creates a visible sheen, it is reportable to the National Response Center
7. Handling and storage	
Precautions for safe handling	Avoid heat, sparks, open flames and other ignition sources. Avoid breathing dust/fume/gas/mist/vapors/spray. Wear personal protective equipment. Do not use in areas without adequate ventilation. Avoid prolonged exposure. When using, do not eat, drink or smoke. Wash hands thoroughly after handling. Do not empty into drains. Hydrogen sulfide, a very highly toxic gas, may be present with this material. Keep face clear of tank and/or tank car openings.
Conditions for safe storage, Including any Incompatibilities	Store in a well-ventilated place. Keep container closed. Keep container dry. Keep away from food, drink and animal feeding stuff. Keep out of reach of children. Use care in handling/storage.

11. Toxicological information

Information on likely routes of exposure

Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure
Inhalation	Vapors have a narcotic effect and may cause headache, fatigue, dizziness and nausea
Skin contact	Frequent or prolonged contact may defat and dry the skin, leading to discomfort and
	dermatitis
Eye contact	May be irritating to eyes
Symptoms related to the	Not available
physical, chemical and	
toxicological characteristics	
Information on toxicological e	ffects
Acute toxicity	Not available
Skin corrosion/irritation	May cause defatting of the skin, but is neither an irritant nor a sensitizer
Serious eye damage/eye	Not classified. May be irritating to eyes
irritation	
Respiratory or skin sensitization	on
Respiratory sensitization	Not available
Skin sensitization	Not a skin sensitizer
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are
C <i>1</i>	mutagenic or genotoxic
Carcinogenicity	None of this product's components are listed by ACGIH, IARC, NIOSH, NTP or OSHA
	Evaluation of Carcinogenicity
ASPHALT (CAS 8052-42-	4) 2B Possibly carcinogenic to humans
US OSHA Specifically Regul	ated Substances (29 CFR 1910.1001-1050)
Not listed	
Reproductive toxicity	Not classified
Specific target organ toxicity	Central nervous system
- single exposure	
Specific target organ toxicity	Not available
- repeat exposure	
Aspiration hazard	Not classified
Chronic effects	Prolonged exposure may cause chronic effects
12. Ecological information	
Ecotoxicity	Not expected to be harmful to aquatic organisms
Persistence and degradability	Not available
Bio-accumulative potential	Not available
Mobility in soil	Not available
Other adverse effects	Not available
13. Disposal considerations	
Disposal instructions	Dispose of contents/container in accordance with local/regional/national/international
•	regulations. If discarded, this product is considered a RCRA ignitable waste, D001
Hazardous waste code	D001: Waste Flammable material with a flash point <140° F
Waste from residues/	Dispose of in accordance with local regulations
unused products	
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or
	disposal
